MEMORANDUM FOR: Members of the Intelligence Advisory Committee

25X1X7RDP82-00283R000100170003-6

SUBJECT : [REDACTED] Revision of the EIC Study on Trade Controls Against Communist China (EIC-R-1)

1. In its meeting of 4 June the members of the Economic Intelligence Committee recommended that the terms of reference for future revisions of the subject study should, in general, include all of the trade and shipping data contained in the original paper, i.e., sections I-C, II and the Appendix. They did not feel that it would be necessary to reconsider the sections relating to (a) the status of controls and (b) measures to increase the efficiency of controls, i.e., sections I-A, I-B and III.

2. The Economic Intelligence Committee was particularly anxious that the revised study generally contain the same depth of detail as the original report and that it include such items as: identification of both beneficial ownership and flag; vessels engaged solely in the coastal trade; as well as ocean-going vessels, both departures and arrivals, etc.

3. As to the frequency of future revisions, the Economic Intelligence Committee felt that quarterly reports would be adequate and that such reports should be on a coordinated basis. [REDACTED]

[REDACTED] has indicated its desire to participate in these periodic revisions. 25X1A9a

ROBERT AMORY, JR. |  
Chairman  
Economic Intelligence Committee
